DATA RELIABILITY

1 reviewed page(s) returned unusually little text. A low risk score from this scan may reflect limited access to the site's content, not necessarily a genuine absence of risky claims.

ADDITIONAL MATERIAL FINDINGS

High Supply-chain responsibility claim

Source: sustainability

Our **responsible sourcing** programme protects workers throughout the supply chain.

WHY IT MATTERS

The wording may imply broad supply-chain control.

EVIDENCE GAP

supplier tiers; audit method; worker voice; remediation

**RECOMMENDED IMPROVEMENT** State covered supplier tiers, assessment method, findings, limitations and remediation.

EXTERNAL PUBLIC-SOURCE SIGNALS

Contextual public-source signals only. Automated retained signals require manual verification of status, entity link and claim relevance.

Regulator reviews environmental claims

Public authority · 2026-06-01

Investigation / regulatory review · Retained - manual verification required

The regulator is reviewing environmental claims made by Example Group.
