

Overall result: 55/100 — Medium claim risk. The main retained claim areas are Future environmental-performance claim, Supply-chain responsibility claim.

Verify the reviewed entity and source scope before relying on the result.

SCORE OVERVIEW

OVERALL CLAIMS RISK 55 _{/100} Medium	GREEN CLAIMS RISK 62 _{/100} Medium	SOCIAL CLAIMS RISK 43 _{/100} Low	ENTITY CONTEXT Medium One external signal was retained.
---	---	---	---

DATA RELIABILITY

1 reviewed page(s) required a public text-extraction fallback. A low risk score from this scan may reflect limited access to the site's content, not necessarily a genuine absence of risky claims.

TOP RISK DRIVERS

#	CLAIM AREA	FLAGGED WORDING	SOURCE
1	Future environmental-performance claim High	net zero by 2030	sustainability
2	Supply-chain responsibility claim High	responsible sourcing	responsible-sourcing

MOST MATERIAL FINDING

High	Future environmental-performance claim Source: sustainability We will become net zero by 2030 across our operations. WHY IT MATTERS A future claim requires a public implementation plan and regular verification. RECOMMENDED IMPROVEMENT Publish a detailed plan with scope, baseline, milestones, resources, progress and verification.	EVIDENCE GAP scope; baseline; milestones; resources; verification
-------------	---	---

COVERAGE AND CONFIDENCE 6 page(s) across 2 domain(s) · Medium six sources were reviewed. one page used a public text fallback. external search was active.	REGULATORY LENS EmpCo for consumer-facing environmental and selected social claims; Forced Labour Regulation as the forced-labour and supply-chain assurance lens.
---	--

ADDITIONAL MATERIAL FINDINGS

High Supply-chain responsibility claim

Source: responsible-sourcing

Our **responsible sourcing** programme protects workers throughout the supply chain.

WHY IT MATTERS

The wording may imply broad supply-chain control.

EVIDENCE GAP

supplier tiers; audit method; worker voice; remediation

RECOMMENDED IMPROVEMENT State the covered supplier tiers, assessment method, findings, limitations and remediation.

EXTERNAL PUBLIC-SOURCE SIGNALS

Negative external stakeholder signals only. Positive, neutral and company-owned sources are excluded. Automated retained signals require manual verification of status, entity link and claim relevance.

No negative external public-source signal was retained. If external search was unavailable, this does not confirm an absence of relevant criticism or enforcement.

PRIORITY ACTIONS

1	Review claims Confirm wording and evidence.
2	Build evidence files Create one evidence file per claim with approved wording, source, owner, evidence link, review status and next review date.
3	Strengthen governance Introduce approval and review controls.

METHODOLOGY

The online source register distinguishes fully analysed, partially analysed, limited-text and failed sources. Only text that entered the analysis can support findings. EmpCo, Forced Labour Regulation and Durably claim-risk methodology apply. See the detailed methodology PDF on the scan homepage.
